

ALAC/At-Large Improvements Implementation Project: Final Report

A. Introduction

This Final Report of the ALAC/At-Large Improvements Implementation Project outlines the activities and accomplishments of the ALAC and At-Large in completing this project. Specifically, it highlights the steps made by [At-Large Improvements Work Teams](#) and the [At-Large Improvements Implementation Taskforce](#) toward the full implementation of the ALAC/At-Large Improvements Recommendations.

As illustrated in the table below in Section D, and more fully in the Appendix, the At-Large Improvements Implementation Project Taskforce has completed the implementation of the Recommendations and Action Items. This completion consists of concluding finite activities or allocating responsibility to bodies of the ALAC and At-Large community, including the ALAC Executive Committee, At-Large Working Groups and Regional At-Large Organizations and their individual At-Large Structures, for activities requiring continuing monitoring and oversight.

B. Background of ALAC/At-Large Improvements Project

On 9 June 2009, the [Final Report of the ALAC Review Working Group on ALAC Improvements](#) was published, incorporating input from two public comment periods. In its 13 Recommendations, the Final Report identified key areas of needed improvement, focusing on At-Large's organization, effectiveness, participation, and relationship to other ICANN entities.

On 26 June 2009, the ICANN Board [resolved](#) to direct ICANN Staff to assist the At-Large community in developing a proposed implementation plan and timeline for the Recommendations in the [ALAC Review Final Report](#) (excluding the Recommendation to provide At-Large with voting seats) and to submit these to the [Structural Improvements Committee \(SIC\)](#) for review and Board approval.

At its 19 June 2010 meeting, the SIC acknowledged receipt from Staff and the At-Large community of the implementation plan and timeline, entitled [ALAC/At-Large Improvements Implementation Project Plan](#), dated 7 June 2010, and resolved to recommend it to the ICANN Board for consideration.

At its 25 June 2010 Meeting, the Board [resolved](#) to direct ICANN's President and CEO to provide the Board with a [summary](#) of the [ALAC/At-Large Improvements Implementation Project Plan](#) dated 7 June 2010, for consideration at the next Board meeting, if practicable.

At its 5 August 2010 Meeting, the Board [resolved](#) to approve the ALAC/At-Large Improvements Project Plan and directed ICANN's President and CEO to take action according to the [ALAC/At-Large Improvements Implementation Project Plan](#) and report back on the progress at the 2010 Annual General Meeting.

On 10 December 2010, during ICANN's 2010 Annual General Meeting, the Chair of the ALAC provided an update on the ALAC/At-Large Improvements Implementation Project Plan in her [Chair's Report](#), prepared in collaboration with Staff.

At its 23 October 2011 Meeting, the SIC acknowledged receipt from Staff of the [ALAC/At-Large Improvements Project Milestone Report](#) dated 9 October 2011, which provided an update on the

implementation of the Recommendations in the ALAC Review Final Report and transmitted it to the ICANN Board.

During the Board Meeting of October 28, 2011, the Board [resolved](#) to acknowledge receipt of the [ALAC/At-Large Improvements Project Milestone Report](#) and recognized the substantial amount of work done thus far by the ALAC and At-Large community toward implementing the ALAC/At-Large Improvements Recommendations.

At the SIC meeting on 11 March 2012 that took place during the 43rd ICANN Meeting in San Jose, Costa Rica, the SIC reviewed the [At-Large Improvements Status Update Report](#) (2 March 2012) and [Appendix](#) (2 March 2012). These documents showed the current status of the ALAC/At-Large Recommendations as outlined in the [Final Report of the ALAC Review Working Group on ALAC Improvements](#) (9 June 2009) and further defined in the [At-Large Improvements Implementation Project Plan](#) (7 June 2010). The Status Update also provided the status of the series of Action Items aimed at implementing each of the Recommendations as developed by the four At-Large Improvements Working Teams between September 2010 and March 2011.

C. Activity of the At-Large Improvements Implementation Taskforce between ICANN's 42nd and 44th Meetings

The At-Large Improvements Implementation Taskforce was established by the ALAC during the 42nd ICANN Meeting in Dakar. This Taskforce consists of [members](#) from each of the five At-Large Regional At-Large Organizations.

Between November 2011 and February 2012 the Taskforce held [weekly meetings](#), in which it systematically reviewed the remaining Recommendations and Action Items for their implementation identified by the At-Large Improvements Work Teams. The Taskforce assigned the remaining Action Items to already-existing At-Large Working Groups and established timelines for their completion.

On 13 March 2012, during the 43rd ICANN Meeting that took place in San Jose, Costa Rica, the At-Large Improvements Implementation Taskforce held a [half-day workshop](#) to discuss remaining implementation activities. On 15 March 2012, members of the SIC met with members of the At-Large Improvements Implementation Taskforce to discuss the Status Update Report and the actions necessary for the completion of the ALAC/At-Large Improvements Project.

Between April and June 2012, the Taskforce held [monthly meetings](#) to implement outstanding Action Items and ensure all Recommendations were concluded. Activities included informing the ALAC Executive Committee, At-Large Working Groups and Regional At-Large Organizations and their individual At-Large Structures of the tasks that they have been asked to implement or monitor. The ALAC ratified the ALAC/At-Large Vision Statement on 24 May 2012.

The ALAC ratified this ALAC/At-Large Improvements Implementation Project: Final Report on 8 June 2012. The result can be independently verified under:

ⁱⁱ The Director for At-Large has consulted with the ICANN Staff responsible for the implementation of the Public Comment Enhancements regarding Recommendation 8 of the ALAC/At-Large Improvements Implementation Project. Following discussion between the Director for At-Large, the ALAC Chair and the Chair of the ALAC/At-Large Improvements Taskforce, the ALAC confirmed its understanding that the guidelines for Public Comments recognize flexibility in extending the Public Comment period beyond the minimum requirements. The ALAC may, on a case-by-case basis, request extensions of 5, 10, 15, 21 or 30 days (in exceptional circumstances). Such requests will be made directly to the Staff person responsible for the specific Public Comment period thereby notifying them that the ALAC intends to submit a comment. The ALAC further requests that a Staff response to such requests for an extension to a Public Comment period be granted or denied in an expeditious manner. If the request is denied, the ALAC may use its right to submit advice to the ICANN Board as per the [ICANN Bylaws](#). We note that the [ATRT implementation process includes the following relevant text](#):

16. *Public notice and comment processes should provide for both a distinct “Comment” cycle and a “Reply Comment” cycle that allows community respondents to address and rebut arguments raised in opposing parties’ comments.*

17. *As part of implementing recommendations 15 and 16, timelines for public notice and comment should be reviewed and adjusted to provide adequate opportunity for meaningful and timely comment. Comment and Reply Comment periods should be of a fixed duration.*

The ALAC and its Improvements Taskforce established that the ALAC Chair, the ALAC Executive Committee and the Director for At-Large will continue to monitor this issue and will provide input to the Senior Director for Participation and Engagement and the Board PPC.

ⁱⁱⁱ Allocated to the Executive Committee.

^{iv} Allocated to the ALAC/At-Large Policy Review Committee standing committee.

Monitoring of On-Going Activities

The monitoring of ALAC/At-Large Implementation Project activities identified as on-going have been transferred to the ALAC, bodies of the ALAC or the At-Large community, or the Director for At-Large. A system similar to the [ICANN Affirmation of Commitments Responsibilities Inventory Tracking and Brainstorming Interactive Chart](#) will be developed for this purpose.

At-Large Improvements Implementation Taskforce Activities and Metrics

The [membership](#) of the At-Large Improvements Implementation Taskforce consisted of a globally diverse group of ten At-Large members, two from each of the five At-Large Regional Organizations. Cheryl Langdon-Orr served as the Chair of the At-Large Improvements Implementation Taskforce. Between November 2011 and March 2012, the Taskforce met weekly followed by monthly calls between April and June 2012. As recommended by the ALAC/At-Large Improvements Implementation project, [metrics](#) have been prepared for purposes of tracking of member participation in the regular calls of the At-Large Improvements Implementation Taskforce.

Appendix

The [Appendix](#), which forms an integral part of this Final Report, includes tables of each of the 13 Recommendations as outlined in the [Final Report of the ALAC Review Working Group on ALAC Improvements](#) (9 June 2009) and further defined in the [At-Large Improvements Implementation Project Plan](#) (7 June 2010). The Recommendations are listed individually in the order of the ALAC Review Final Report recommendations.

Each Recommendation table consists of the following information:

- The number of the Recommendation;
- A summary of the Recommendations within the ALAC Review Final Report;
- The Action Items developed by each of the At-Large Improvements Working Team in order to implement that specific Recommendation;
- The status of each Recommendation and Action Item – that is, whether they have been completed are require on-going monitoring by bodies of the ALAC and At-Large;
- Notes that further clarify how the Recommendation or Action Item has been implemented and any on-going action required.

The [Appendix](#) has been designed to be primarily wiki-based. However, the tables have also been included in this document.
