

Pacific Cyber Dialogue

VIRTUAL SUMMIT AND WORKSHOP

November 17-20, 2020

www.cyberpacific.net

Navigating Cybersecurity Challenges Across the Pacific Region

Pacific communities and economies rely on a shared cyberspace that is healthy, secure, and inclusive.

Join key stakeholders for a series of discussions on how to build policies, partnerships, and practices that protect the region from new and emerging challenges to cybersecurity.

PARTICIPATING ORGANIZATIONS:

TABLETOP EXERCISE

Join Andrew Grotto, former U.S. Senior Director for Cybersecurity Policy, for a hands-on exercise responding to a simulated ransomware attack on critical health infrastructure. Limited space.

PRIVATE DIALOGUES

Participate in invite-only discussions with key stakeholders from Pacific governments and international companies and organizations including Google, Facebook, APNIC, and FireEye.

PUBLIC WEBINARS

View public webinars and Q&As on critical issues affecting online spaces, including online misinformation and cyber safety.
