

*With this last info letter we would like to thank you for contributing to the EuroDIG process. We say goodbye for 2014 and reminding you...*

- **...it's still time to submit your proposal for the EuroDIG 2015 agenda until 31 December 2015**

Submitting a proposal via the online form will only take two minutes. No extensive description is needed because we are not asking for session proposals. We simply like to know which topics you think should be discussed during the next EuroDIG. Incoming proposals are published on the website and you can mark your favourites in January 2015.

- **...register now for the public planning meeting on 27 January 2015 in Sofia**

All proposals will be reviewed publicly during the planning meeting on 27 January 2015. The evening before participants can meet for a networking dinner (self paying basis). Registration details, the agenda and further information are available on the [EuroDIG website](#). We hope to welcome many of you there!

- **... and because it's Christmas...**

...we have a little gift for the EuroDIG community. With the EuroDIG NEWSPAPER we curate from now on relevant articles about Internet Governance. By using [paper.li](#) - a free tool - we will provide a weekly update on news, debates and scientific papers about IG issues. The NEWSPAPER will be distributed via social media, but you can also subscribe to it at the [EuroDIG website](#) or directly [here](#).

*We wish you some peaceful seasonal holidays and a prosperous start into the new year! We look forward to hear from you in 2015 again!*

The EuroDIG team
