Global Key Internet Activities towards the Global Multistakeholder Meeting **ITU Plenipotentiary Conference** on the Future of Internet Governance 20 October - 7 November 2014 Held every four years, the plenipotentiary is considered the top policy-making body of the ITU. During this session, Member States set the ITU's general policies, adopt four-year strategic and financial plans, and elect senior management and other officials. ITU Sector Members, Regional Telecommunication and Intergovernmental Organizations, and the United Nations and its specialized agencies may also attend the Conference as observers. As noted on the ITU website, "The Plenipotentiary Conference is the key event at which ITU Member States decide on the future **Cross-community Working Group on** role of the organization, thereby determining the organization's anillity to influence and affect the development of Information **Internet Governance** and Communication Technologies (ICTs) worldwide.'
