

ALAC Outreach & Engagement SC

LACRALO Conference Call | May 16 2016

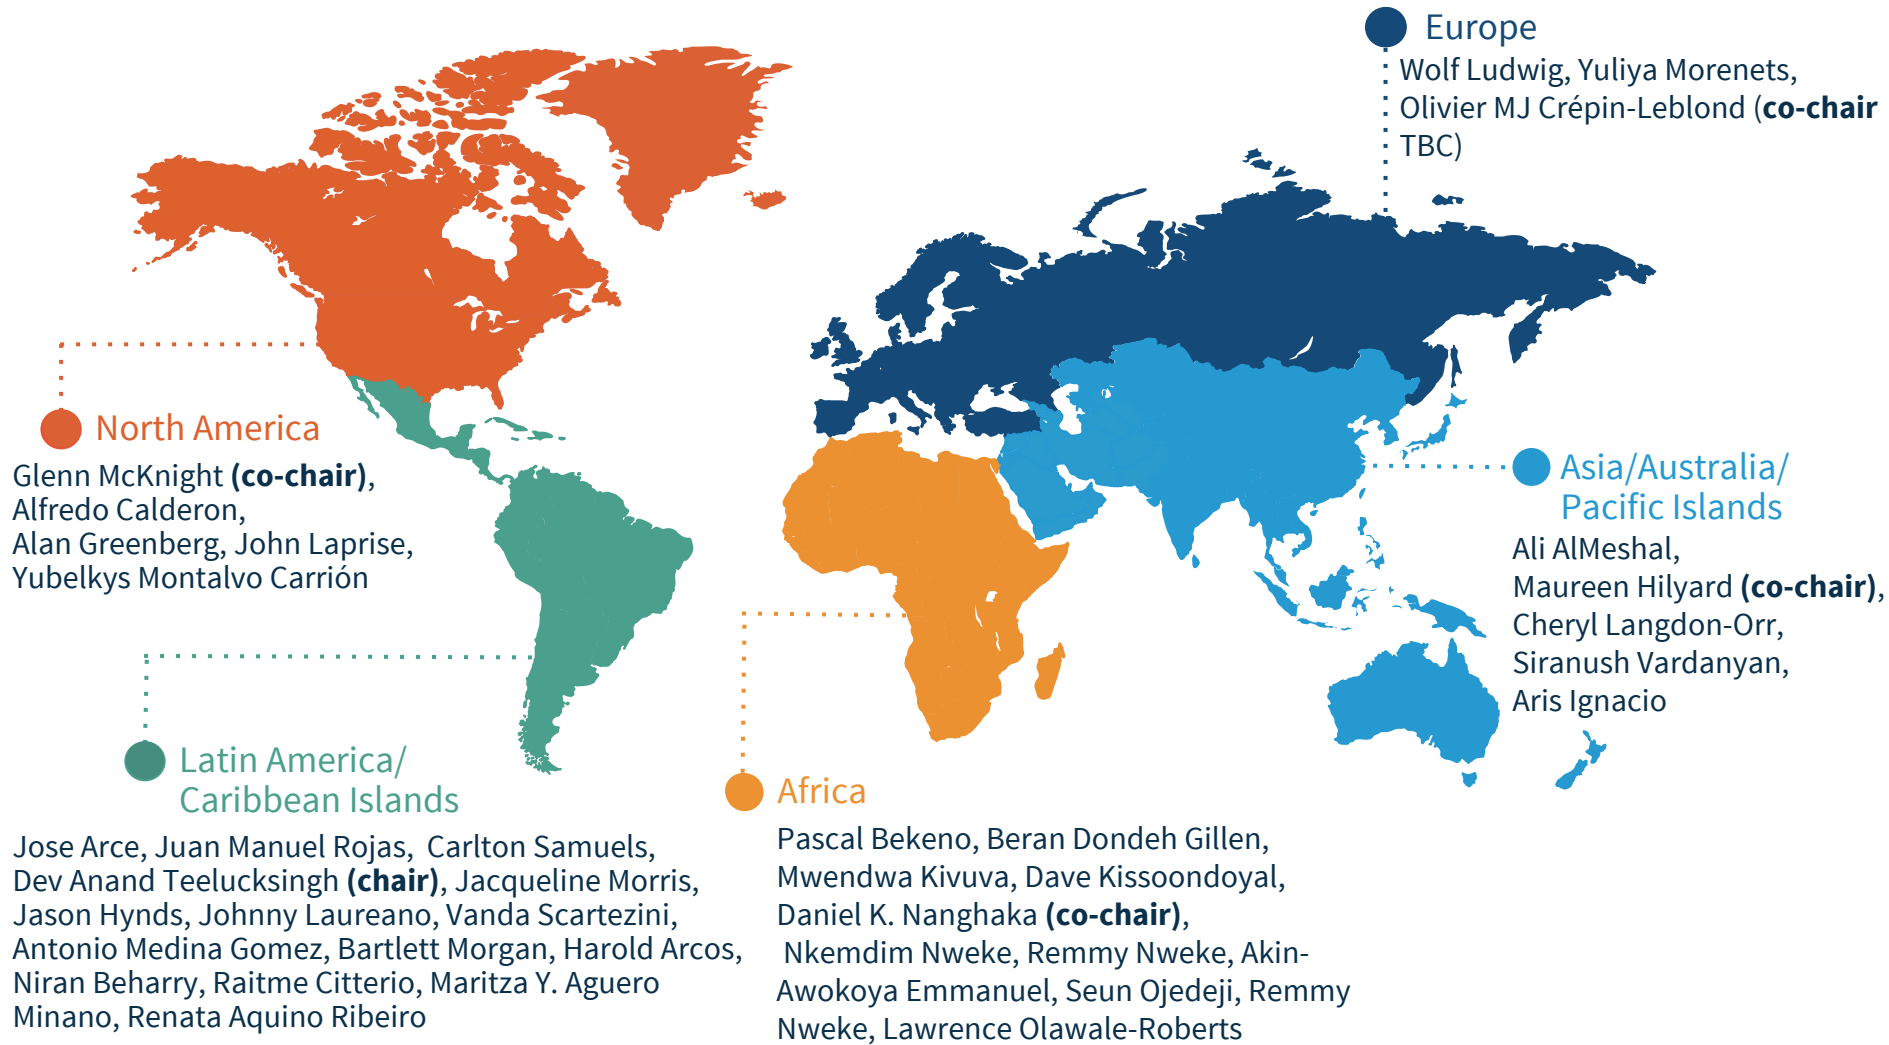

The ALAC Subcommittee on Outreach and Engagement (O&E) develops strategies

- to reach out to new potential members of the At-Large Community (**Outreach**) and
- to engage new and existing members of the At-Large Community (**Engagement**)

to continue to fulfill At-Large and ALAC's role in ICANN activities.

This Subcommittee will work with the At-Large Community to ensure such strategies are implemented successfully.

ALAC Outreach & Engagement SC members

- Similar to the requirements for the [Community Regional Outreach Pilot Program \(CROPP\)-FY16](#) , the proposed CROPP FY17 requires an updated Outreach Strategic Plan for each RALO.

Each RALO's Outreach Strategic Plan should explain its FY17 outreach goals and planned expectations so that any selected CROPP activities can be coordinated with the appropriate ICANN Global Stakeholder Engagement teams.

- These plans must also be approved by the ICANN's regional Global Stakeholder Engagement.
- If any RALO wants to apply for CROPP in mid July 2016, it is important to have approved plans in place by June 30 2016 before proposals can be filed in time for mid July 2016.

LACRALO Draft Outreach Strategy for FY17

- A key focus of LACRALO's outreach strategy will be getting organisations to become accredited At-Large Structures (ALSes) from the 12 out of 33 countries in the Latin American and Caribbean (LAC) region that do not have any ALSes. These countries are noted on the LACRALO Dashboard at <http://bit.ly/lacralo-dashboard>)
- The LACRALO's members from the Outreach and Engagement SC will be maintaining an outreach calendar at <http://bitly.com/LAC-Outreach-Calendar> to track possible ICT and IG events in those territories without ALSes and regional IG events where persons and/or possible ALSes from those territories are likely to attend. This calendar will be used to identify possible events for CROPP proposals.

Draft LACRALO Outreach Strategy for FY17

- Furthermore, the LACRALO members of the Outreach and Engagement SC will survey possible individuals and/or organisations that would be At-Large candidates in those countries without ALSes. Other ICANN stakeholders (GAC, ccNSO, Fellows) in territories without ALSes would also be consulted to find suitable At-Large candidates.
- Once a sufficient number of individuals/groups are identified, attempts would be made to contact such individuals to invite them to several conference calls to share information about DNS basics, ICANN and ICANN At-Large so that such individuals/groups can join At-Large and/or participate in opportunities offered by ICANN such as the Fellowship programme, the Nextgen programme and applying for ICANN positions via the Nomcom.
- As a pilot program for FY17, the ICANN LAC Strategy will fund two outreach F2F events in the LAC region (one in Latin America, one in the Caribbean) in countries without At-Large Structures. The LACRALO leadership, in coordination with the LAC Global Stakeholder Engagement, will use the Outreach and Engagement SC's survey data of possible At-Large candidates in countries without ALSes to select which countries will have the F2F events. Additional Ideas for the planning of such events can be found on the LACRALO wiki at <https://community.icann.org/x/Aa7hAg>.
