

AT-LARGE TRAVEL POLICY

Introductory Note by the ICANN Staff

This document contains the policy for travel support of At-Large community members attending meetings where they request travel support from ICANN. This supersedes any other travel policy in relation to the community or its members, whatever the source.

Please note that a final decision is pending in respect of which reimbursement method should be chosen for expenses not directly paid by ICANN. This is dealt with in the text below. Once a final determination has been made this document will be revised and provided to all members of the community.

[End of Introduction]
