Marita Moll - Presenter

JULY 13, 2020
DOOR OPENS AT 19H00 UTC*

Improving the effectiveness of ICANN's multistakeholder model of governance is one of five strategic objectives in the 2021-2025 strategic plan. This follows almost two years of facilitated community wide discussions on the challenges currently facing the system.

At Large input into this discussion so far and next steps in the process will be presented.

The discussion will explore the following questions: What are the main interests of end users in this debate? If the voice of end users is to remain strong, where should At Large focus its attention?
